

No wind day

Logbook: 2024.06.30 Korcula / Badija to Scedro / Moster

Got up early. Very quiet it is. No motor boats, no tourists. Go for a swim. Paddle over to the [Badija monastery](#). (The Franciscans owned Badija until 1950 when the island was expropriated from them and later used as a sport and tourism centre). Deers show up. A deserted basket ball field. Very peaceful.

I was planning for a long trip towards north today, with a supporting wind forecast. But that wind didn't pick up as expected. Motoring some hours. I got bored, looking for a place to stay. Scedro island and the [Restaurant Moster](#) comes to my mind, which is on the way.

Decision made, I booked a table and buoy for the night. A nice bay and friendly staff. The buoy was 34 Euro. The food 71 Euro. Good quality, freshly made. I didn't have such expensive food for the whole trip.

Highlight of the day – another Flying Fish
